

# GRAPELAND INDEPENDENT SCHOOL DISTRICT

## Drug Testing Consent Form

The Grapeland Independent School District has approved the attached student drug testing policy. The policy is designed not to be punitive but to assure the student's health while participating in extracurricular activities. GISD would like to deter drug use and help students live drug free lives.

This consent form verifies that I agree to participate in the GISD drug testing program. I understand that failure by me or my parent/guardian to sign the consent form results in the removal of the privilege to participate in extracurricular activities. If I am unclear about any aspect of the drug testing policy, it is my responsibility to contact an administrator at my school.
